GAF COMMERCIAL PRICE INCREASE – TPO MEMBRANES

TO: Customers of GAF Commercial Roofing – United States, Canada and International

Dear Friends,

In keeping with GAF Commercial’s commitment to provide a clear Not to Exceed outlook for future pricing of our roofing products, please be advised of the following update.

Effective with shipments on/after Monday July 3, 2023, all TPO membranes will increase as indicated below. Products affected by this increase are as follows:

Product	Increase NOT TO EXCEED
	Q3 2023
All TPO Smooth Membranes	+\$0.02/SF
All TPO Fleece Back Membranes	+\$0.02/SF
All TPO Extreme Membranes (Smooth & Fleece Back)	+\$0.02/SF
All TPO Self-Adhered Membranes	+\$0.02/SF

This increase has been already reflected in any job quotes that have been generated. It has become necessary to implement this increase due to recent inflation of the raw materials used to manufacture TPO membranes, such as polypropylene and resins.

Increased pricing will be valid through September 30, 2023. We will reassess pricing for the remainder of the year at a later date, and communicate our pricing intentions to you through our Commercial Sales team.

Please do not hesitate to contact me should you have any questions or concerns.

With my best, and sincere thanks for your support,

Alma Garnett
Sr. Vice President, Sales
Commercial Roofing Systems
